EAEC is the Coordinator of CONOCO project “Coping with NO mobility during COrona Virus times: Learning from each other”

Since Covid-19 emerged to a pandemic in 2020, it has compelled many governments around Europe to take extreme measures of lock down to an unimaginable degree until then. As a result, millions of Europeans were forced to stay home for an extended period of time. This new reality found most, unprepared to adapt their working, producing, creating, learning, teaching and living habits and be as productive and effective while staying at home.

CONOCO, is a KA2 exchange of good practice project and aims to collect practices from the partner countries and beyond, on how the European employees-employers, educators-students, parents-grandparents, including people with disabilities, were coping with staying at home and also highlighting original, typical approaches that proved to be efficient and helped people’s productivity and creativity.

Coordinator of the project is the European Association of Erasmus Coordinators. The other member organizations of the consortium are DE, GR, RO and IT. The duration of the project is 20 months beginning in October 2020. More information will be available on the project [website](#)
