

EAEC / EACG Congress 2024 in Porto, PT

ERACON 2024 / CAREER-EU 2024

The ERASMUS Congress and Exhibition - **ERACON 2024** hosting also the **CAREER-EU 2024** Conference were successfully organized in Porto between **24-28 June 2024**.

The latest update of ERASMUS+ program and a round-table for the next programme 2028-2034 were among the highlights of the Congress with the participation of the European

Commission.

Networking, exchange of good practices and presentations of ERASMUS+ projects were a major part of the program.

More details on CAREER-EU 2024 click [here](#).

The ERACON 2025 is decided to be hosted in Thessaloniki, Greece.

Bridging the digital divide: 95% of Learning Agreements to be digital by 2025

The number of digital learning agreements completed per academic year has increased steadily in the past years. An action plan for 2024-2025 aims to close the remaining gaps.

Although many higher education institutions are now actively exchanging digital learning agreements, there are still gaps that negatively impact both staff and Erasmus+ students.

For more, read here: <https://erasmus-plus.ec.europa.eu/news/bridging-the-digital-divide-95-of-learning-agreements-to-be-fully-digital-by-2025>

EU PROJECTS NEWS

ECOVEM Project results 2024

The workshop focused on one of the strategic priority agendas of the European Commission the European Chips Act and reversing the semiconductor skills shortage and provided practical guidance and invited to new joint actions for achieving growing diversity, equity and inclusion in the European Microelectronics

industry.

Celebrating Women Role Models in STEM

As part of the ECOVEM project, we have identified 35 inspiring women role models excelling in STEM. Their stories of overcoming challenges and breaking barriers are truly inspiring for everyone. Learn more about these remarkable women and their contributions here:

REVEALING Project

We're excited to share that our first Multiplier Event in Athens was a great success! Educators explored VR technologies through hands-on workshops, testing our project's innovative VR learning environments. The positive feedback was encouraging, with many participants eager to implement VR in their own teaching.

As the REVEALING project nears completion, we're proud of the impact it's making. Stay tuned for more updates!

For details, visit our website: <https://revealing-project.eu/>

DEELforHOST Project

As the "Digital Employer Engagement and Learning for Hospitality and Tourism under Pandemic and Other Crisis Situations" (DEELforHOST) project comes to an end, we remain optimistic about its potential to bridge the gap between higher education and the hospitality and tourism industry.

If you're interested in joining this transformative initiative, you can explore the platform here: <https://deel4host.cs.ucy.ac.cy/platform/>

Find more information on the project's website here: <https://deel4host.cs.ucy.ac.cy/>

GREEN ROOFS Project

The Green Roofs project, is developing an innovative training course and methodology to develop a new, multidisciplinary occupational profile, specialized in green roofs. The project fosters the employability, socio-educational and professional development of young graduates in construction engineering, landscape architecture, urban planning and related studies through the acquisition of skills needed for urban regeneration.

The project objectives are to:

- Exchange of knowledge and best practices on urban regeneration through green roofs;
- Develop an innovative training course on green roofs gathering forward-looking skills in a strategic field for smart economic and social development;
- Provide work-based learning opportunities for young graduates in construction engineering, and similar fields;
- Foster employability, socio-educational and personal development for young graduates in construction engineering (and other similar professional profiles) through the acquisition of new specific skills in order to find alternatives to a saturated market;

Visit the project's website for more information: <https://green-roofs.eu/>
